SPLASHTACULAR®

Waterslides and Waterpark Attractions

The Magic Behind Immersive Experiences

Bring the magic of an immersive experience to your waterpark with our special effect options. From translucent waterslide sections and bands, timing systems and start lights to custom sound effects and lighting packages, we provide everything you need to transform your environment into a feast for the senses. Sight, touch and sound combine with exhilarating waterslides, water features and play units to thrill guests again and again. Special effects can be added to an entire waterpark or to specific areas to create unique environments where guests can lose themselves in the adventure of it all.
